

Presenting the Best PreNatal Supplement

Femayl-DHA

TABLETS

L-5-Methylfolate calcium 1 mg + Methylcobalamin 1500 mcg +
Pyridoxal-5-phosphate 2.5 mg + DHA 200 mg & Vit. D3 2000 I.U.

DHA:

- Optimizes brain & retinal maturation in developing foetus
- Prevent preterm birth

L-Methyl folate: 7 times more bioavailable than folic acid

- Essential for a developing foetus, as it participates as a cofactor in a reaction that involves the remethylation of homocysteine to methionine
- Unlike folic acid, L-methylfolate can be used directly by the body, without the need for an additional conversion via enzyme

Methylcobalamin:

- Reduces high homocysteine levels
- Vital to maintain normal size of babies in pregnancy

Pyridoxal-5-phosphate

- Highly effective in the treatment of nausea & vomiting in pregnancy
- Provides protective effect for cardiovascular malformations in growing foetus
- Vital for the development of neurotransmitters in developing babies

Indications

Spontaneous Miscarriage

Useful in Anemia

Recurrent Abortion

Nausea and Vomiting

IUGR

Healthy Neurons

pre-term labor

Peripheral Neuropathy

Ensure Happy & Healthy Pregnancy
